

# Net Zero Carbon Events Pathway

## Net Zero Carbon Neutrality of Scope 1, Scope 2 and Scope 3 Greenhouse Gases Emissions.

**Scope 1 and Scope 2:** Achieving Net Zero Carbon Neutrality by 2040.

**Scope 3:** GHG emissions reduction target by 60%.

**Scope 1 and Scope 2:** GHG emissions reduction target by 50%.

**Scope 3:** GHG emissions reduction target by 20%.

We start to track our GHG emissions of Scope 3 and working with stakeholders to conduct Scope 3 baseline setting and reduction framework.

We started to track our GHG emissions reduction of Scope 1, Scope 2 and energy consumption intensity compared to the baseline year.

2019

**Scope 1 and Scope 2:** Maintaining Net Zero achievement and collaborate with our partners in supply chain to support them in achieving shared Net Zero goals.

**Scope 3:** GHG emissions reduction target by 80%.

**Scope 1 and Scope 2:** GHG emissions reduction target by 75%.

**Scope 3:** GHG emissions reduction target by 40%.

**Scope 1 and Scope 2:** GHG emissions reduction target by 25%

**Scope 3:** First-year implementation and tracking of Scope 3 emissions.

We formalized Net Zero Carbon Events Pathway with interim targets.

### Baseline Year

We initiated to implement GHG emissions of Scope 1, Scope 2 and energy optimisation.
